netstrategy
design build run

Do you have what it takes to work for one of Australia's leading IT Services organisations?

- NetStrategy have been helping our clients to Design, Build and Run effective technology infrastructure for over 25 years.
- We are a fast growing team of IT professionals, and we are always looking for outstanding people to join our team.
- We are Dynamic, Disciplined & Determined. We always do what we say we will. We are a technical organisation.
- We work with all aspects of Servers, Storage, Networking, Software, Data, and client/end user devices.
- We provide services to Government, Education and Corporate clients, as well as to other IT/technology companies.

Role 1: Education - On-site, level 1 Network Administrator

Location: North Sydney

Skills: Windows, Mac and Networking

Overview: You will be expected to manage between 60% to 80% of day to day operations, including providing help desk services. You will be working with students, teachers, and school staff.

MUST Have: IT Certification and a high level of English skills – speaking, reading, writing, spelling and grammar. Must be able to pass “Working with Children” standard.

Preferable: We would prefer someone who attended a private, independent or catholic school to ensure you are comfortable in that environment.

Role 2: Education - On-site, level 1 Network Administrator

Location: East Sydney

Skills: Netware, Windows, Networking

Overview: You will be expected to manage between 60% to 80% of day to day operations, including providing help desk services. You will be working with students, teachers, and school staff.

MUST Have: IT Certification and a high level of English skills – speaking, reading, writing, spelling and grammar. Must be able to pass “Working with Children” standard.

Preferable: We would prefer someone who attended a private, independent or catholic school to ensure you are comfortable in that environment.
